Professional Summary

Java backend engineer with hands-on industry experience building and maintaining services using **Spring Boot**, **Microservices**, **REST APIs**, and **SQL**. Currently contributing at Cognizant on scalable backend modules, API integrations, and secure implementation practices.

Core Skills

Languages: Java, SQL, JavaScript (Basics)
Backend: Spring Boot, Microservices, JPA/Hibernate, JDBC, RESTful APIs
Web: HTML, CSS, React (Project-level)
Databases/Tools: MySQL, Git, GitHub, VS Code, MySQL Workbench, Swagger/OpenAPI, GitHub Copilot

Experience

Programmer Analyst Trainee Feb 2026 – Present
Cognizant *India*

- Build and maintain backend services using Java, Spring Boot, and microservices architecture.
- Deliver REST API integrations to ensure reliable communication across system modules.
- Strengthen debugging and development workflows using GitHub Copilot and structured troubleshooting practices.

Java Full Stack Trainee Jun 2025 – Dec 2025
Tap Academy (EdTech) *India*

- Built CRUD-based backend modules using Java, JDBC, and MySQL, with focus on query optimization and debugging.

Projects

GreenGov Platform – Profile & Registration Microservice Java, Spring Boot, React, JPA/Hibernate

- Engineered a full-stack microservice with responsive dashboards for end-to-end citizen onboarding and profile management.
- Designed secure upload validation with magic-byte checks to block malicious files before persistence.
- Implemented Resilience4j Circuit Breaker to improve service reliability and prevent cascading failures.
- Automated API documentation and collaboration using SpringDoc OpenAPI (Swagger).
- GitHub: github.com/k-malleswarreddy

Education

B.Tech, Computer Science Engineering 2025
Siddhartha Institute of Science and Technology *CGPA: 8.83*

Intermediate (MPC), Sri Chaitanya Junior College 2021
Board of Intermediate Education *Percentage: 89.1%*

Certifications

- **Claude Certified Developer - Foundations** (Anthropic) – Issued Aug 2026, Expires Aug 2027
- **GitHub Copilot Certification** (Microsoft) – Issued Apr 2026, Expires Apr 2028
- Full Stack Java Developer – QSpiders (2023)
- Artificial Intelligence – EDX (2024)

Leadership & Activities

- Led a 4-member technical team to deliver project milestones on schedule.
- Coordinated college technical events with 100+ participants.
